THE MURRAY LEDGER.

VOL. 22, NO. 15

MURRAY, KENTUCKY, THURSDAY, JULY 7, 1910.

10 CENTS PER YEAR.

ESTEEMED LADY PASSES AWAY.

Mrs. L. A. Haley, 79 Years of Age, Mother of E. H. Haley.

Mrs. L. A. Haley died at the home of her son, E. H. Haley, Monday morning after a short illness of flux. She was 79 years of age and one of the most highly esteemed christian women of the county. She had been making her home in the city for several years and won many friends during her residence here. She is survived by three children. The funeral services were conducted by Rev. Paul Jefferson after which the remains were taken to Buchanan, Tenn., Tuesday for interment.

Those Pies Of Boyhood.

How delicious were the pies of boyhood. Nipples now ever taste to you? What's changed? The pie? No, it's you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up by Electric Bitters of all organs of digestion—Stomach, liver, kidney, bowels—try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50c at Dale & Stubblefield.

L. Robertson Convicted.

L. Robertson was charged with the ownership of the four cases of whisky confiscated last week by Marshals Nix and Brooks as it was being hauled here from Puryear, Tenn. He was given a trial before Judge Simpson Thursday and was fined \$100 and sentenced to fifty days in jail for having the whiskey in his possession for sale. He was later given a trial for bringing more than five gallons of whiskey into a local option community and was sentenced to 100 days upon the streets at hard labor. Both cases were appealed to the circuit court.

Work 24 Hours A Day.

The busiest little thing ever made are Dr. King's New Life Pills. Every pill is a sugar coated globe of health, that changes weakness into strength, languor into energy, brain fog into mental power; curing Constipation, Headache, Chills, Dyspepsia, Malaria. 25c at Dale & Stubblefield.

IN SOCIETY.

One of the prettiest and most enjoyable entertainments given in Murray this year was the reception Friday evening given by Mrs. T. B. Knight and Miss Elizabeth Parker in honor of Miss Celia Jones, of Bartow, Fla., and T. A. Parker, U. S. N.

Receiving in the hall were Mr. and Mrs. T. B. Knight, Miss Celia Jones, Miss T. A. Parker, Miss Elizabeth Parker and Mrs. Lona Keys.

After the guest had removed their wraps they were ushered into the back hall where punch was served by Misses Hilda Williams and Lena Pool. The color scheme of blue and old gold was carried out in the decorations.

A navy contest was given in which Miss Gelah Parker won

the prize, a miniature battleship, which was christened the Maryland, being the name of the ship which T. A. Parker is assigned to in the Pacific Squadron. After this the guests were received in the dining room by Mrs. Emma Brame, where a delightful three course luncheon was served.

Those present were: Misses Maie Hill, of Chicago, Celia Jones, of Bartow, Fla., Miriam Frazer, Maggie Edwards, Maude Cook, Ruth Dale, Mary Card, Gelah Parker, Reba Pace, of Chickasha, Okla., Eula Whitnell, Ruth Whitnell, Myrtle Knight, of Louisville, Ky., Lydia Acree, of Hazel, Mr. and Mrs. E. N. Holland, Miss Parker and Mr. and Mrs. T. B. Knight. Messrs: Geo. Gatlin, Rudy Oury, Henry Holton, Joe Parker, Zeph Conner, Hafford Hay, Dr. Will Keys, of Los Angeles, Cal., T. A. Parker, Herman Duguid, Gaston Pool, Dr. Sam Yongue, Taz Miller.

Napoleon's Grit

was of the unconquerable, never say-die kind, the kind that you need most when you have a bad cold, cough or lung disease. Suppose trachea, rough, syrups, and liver oil or doctors have all failed. Don't lose heart or hope. Take Dr. King's New Discovery. Satisfaction is guaranteed when used for and throat or lung trouble. It has saved thousands of hopeless sufferers. It masters stubborn colds, obstinate coughs, hemorrhages, jaundice, croup, asthma, hay fever and whooping cough and is the most safe and certain remedy for all bronchial affections. 50c. \$1.00. Trial bottle at Dale & Stubblefield.

MISS ERWIN IS COMING HOME.

Miss Cordelia Erwin, who is a missionary in Korea, stationed at Songdo, arrived in New York the 4th inst. and will go to Asheville, N. C., to attend the young peoples missionary conference before coming to Calloway to visit home folks. She is expected to arrive here next week. She is one of the well known young ladies of the county and has many friends who will rejoice to welcome her home.

Doing hard work in a bent or stooping position puts a stitch in the back that is painful. If the muscles have become strained, you can't get rid of it without help. The great penetrating power of Ballard's Snow Liniment will appeal to you most strongly at such times, because it is the very thing you need. Price 25c, 50c and \$1.00 per bottle. Sold by Dale & Stubblefield.

Smashed Through a Fence.

While out driving in Dr. Sam Yongue's automobile the first of the week it crashed through a fence at the home of L. Robertson on Institute street resulting in a bent axle and two punctured tires. Will Yongue was at the wheel at the time and as he was learning the mechanism the accident was unavoidable. The occupants of the car escaped without injury.

When you feel lazy, out of sorts and yawn a good deal in the daytime, you can charge it to a torpid liver which has allowed the system to get full of impurities. Herbine cures all disorders produced by an inactive liver. It strengthens that organ, cleanses the bowels and puts the system in good healthy condition. Price 50c. Sold by Dale & Stubblefield.

MRS. EVERAD MASON DIED VERY SUDDENLY TUESDAY.

Mrs. Bernice Mason, of Hazel, died very suddenly Tuesday afternoon of hemorrhage of the lungs. Her death came as a sudden shock to the entire community and has cast a gloom over the little city of Hazel. She was married to Everad Mason just two weeks ago. Tuesday afternoon she went to her room stating that she was not feeling well and later when attempt was made to arouse her it was found that she had been dead some time. She suffered with consumption some several months ago but it was thought that she had entirely recovered from the disease, but it is now conceded that the malady was only temporary dormant and that her sudden death was due to this cause.

She was a daughter of R. L. Marshall, of Jones Mill, and was a sister to Mrs. F. F. Acree of this place. She is survived by her husband, father, mother, four brothers and one sister. She was about 20 years of age and very popular and much loved young woman.

Funeral services were conducted Wednesday afternoon after which the burial took place in the Hazel cemetery.

Small Docket in Quarterly Court.

But few cases were called in quarterly court here this week. The only cases that attracted attention was the suit of Wm. McKeel against Will Willoughby, which grew out of a trade. It seems that Willoughby traded McKeel a mule for a horse and \$65. McKeel charges that the mule eyes were defective and sued to recover damages, and was given a judgement for \$65.

The suit of J. Y. Mills against Fields & Son for wages amounting to \$38.40 was heard and the case argued today.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This Liniment is equally valuable for muscular rheumatism, and always affords quick relief. Sold by All Dealers.

Fell from Moving Train.

George Miller, of the New Providence section of the county, fell from a moving train the past week at Tobacco and while holding to the rear coach was dragged quite a distance sustaining serious bruises. He boarded the train at Murray and was en route to Hazel. When the train started at Tobacco he was thrown from the rear coach and held to a rod. He was afraid to turn loose for fear he would be thrown under the wheels. His predicament was discovered and the train stopped in time to prevent possible fatal injury.

Stings or bites that are followed by swellings, pain or itching should be treated promptly as they are poisonous. Ballard's Snow Liniment counteracts the poison. It is both antiseptic and healing. Price 25c, 50c and \$1 per bottle. Sold by Dale & Stubblefield.

GROVER CUNNINGHAM HELD TO THE NEXT GRAND JURY.

Grover Cunningham who shot and wounded Frank Pettie at the latter's home about ten days ago was given an examining trial last Saturday before Police Judge Simpson and bound over to the August grand jury under a bond of \$500. Both parties are negroes. Cunningham executed bond and was released.

WHERE TO WORSHIP.

CHRISTIAN CHURCH NOTES.

Final word before our revival. Prof. J. E. Sturgis, our leader of song, will be here Friday afternoon July 8th. He is very anxious to meet those of the congregation who sing on Friday night at the church at 8 o'clock. Do come if possible. Our evangelist, R. H. Crossfield, will arrive Saturday and the ladies of the church will serve light refreshments on Saturday night at 8 o'clock at the church. We trust that every member of the church will be present and give our workers a hearty, heartfelt welcome. Every member of the Church of Christ must deny himself a portion of his time next Saturday night and come to the church at 8 o'clock to welcome our evangelists.

METHODIST CHURCH.

At the morning hour the pastor will preach, the theme being: Paul's High Conception of the Christ Life? Romans 1.

The musical program is as follows:

Voluntary—Gavotte in B minor—Nassberg—Mrs. Joe Ryan. Offertory—"He Leadeth Me"—Excell—Chorus Choir. Offertory—(b)—Palms—Cello—H. C. Brassfield. Postlude—Ave Verum—Mezart Miss Gladys Owens.

The night service has been called in on account of the revival service at the Christian church. Prayermeeting Thursday night and choir practice at the conclusion of the service.

BAPTIST CHURCH.

Dr. W. D. Powell, State Mission Secretary of General Association of Kentucky Baptists, will preach at West Fork Saturday before the Third Sunday in this month at 11 o'clock a. m., and at Coldwater the same day about 3 p. m. He will preach at Murray Baptist church both morning and evening of Sunday July, 17th.

WEST MURRAY CIRCUIT.

There will be preaching at Martin's Chapel next Sunday at 11 a. m. by the pastor, Rev. J. M. Hamill. Subject: "Friendship With God." All are invited and the presence of the entire membership desired.

The third quarterly conference for the West Murray Circuit will convene at Goshen 15 and 18 inst. The Presiding Elder, Rev. David Lieth will preach Sunday, the 17th at 3:30 and Monday the 18th at 11 a. m. The quarterly conference will be held Monday after dinner. We hope to meet every official member of the church, and trust we shall have a good conference. Brethren Come! And come praying.

J. M. HAMILL, Pastor.

JONES BROS. OF HAZEL SUSTAIN LOSS BY FIRE.

Hazel, Ky., July 5.—Fine work on the part of the bucket brigade prevented a disastrous fire early yesterday morning when fire broke out in the general merchandise store of Jones Brothers. The building is located in the main business block, and gained a good start as the blaze started early in the morning, but the volunteer firemen worked faithfully and only the first floor of the building was damaged seriously. The store was completely gutted, and the loss on the stock is estimated at \$3,000 with insurance at \$2,000. The building is owned by Ben Nix. The cause of the fire is unknown but it is thought that rats gnawing matches.

Notice to Creditors.

I will, on Wednesday, August 3rd, 1910, at the law office of F. F. Acree, in the city of Murray, Calloway county Kentucky, sit to receive claims against the Planters Telephone Co. All persons, firms or corporations, holding any claims against the said Planters Telephone Co., will on said date present their claim properly proven. W. J. GUERIN, Assignee, of Planters Tel. Co.

Mrs. J. H. Coleman visited a specialist in Paducah this week for a trouble she is experiencing with her eyes. Her friends will regret to learn of her condition.

Rev. T. M. Mathews will preach next Sunday morning and afternoon at the court house. The morning service will be held at 11 o'clock and the afternoon service at 3:30 o'clock. The public is invited to attend.

Eager Interest Being Manifested in County and New Members are Pledging.

While there has not been any great blast of trumpets and "but little speaking in interest of the association, still at every opportunity presented hundreds of acres of the growing crop of tobacco are being pledged the association. The fact that the books of the organization close the 15th of August is causing the farmers to give the matter early attention, and the further fact that unless a majority of the crop is pledged the association will withdraw from Calloway county is causing the friends of the association to busy themselves in its behalf. At the speaking at Boatwright last Saturday every grower present signed the pledge and at the meeting Saturday night at Elm Grove not a single man present refused to sign up his crop for the year 1910.

At Coldwater some several days ago more than 100 acres was pledged at a meeting held and which was only slightly attended. In fact reports are coming in every day to the effect that those who are engaged in the pledging are have a pledge in their possession are meeting with enthusiastic encouragement in their efforts to pledge the present crop.

The time for pledging is fast passing and every grower who anticipates joining the organization should see that no time is lost in placing his name with the organization. The books close Aug. 15th.

Black Bass For Clark's River.

A large consignment of black bass from the government hatchery at Mammoth Springs, Ark., arrived here Thursday and were immediately taken to different sections of Clark's River where they will be released. Dr. C. L. Morris and other local enthusiasts have been devoting much time to securing the fish and are to be congratulated upon the interest manifested in the matter. It is to be hoped that in the future proper protection will be afforded the young fish and that seining and dynamiting will be strictly prohibited as the law provides. Within a very few years Clark's river will be one of the finest fishing streams in the state if the fish are given protection.

If you feel "blue," "No account," "laid," you need a good cleaning out. Herbine is the right thing for that purpose. It stimulates the liver, tones up the stomach and purifies the bowels. Price 50c. Sold by Dale & Stubblefield.

THURSDAY, JULY 7, 1910.

WHAT ARE YOU GOING TO DO ABOUT IT?

It is time the tobacco growers of Calloway county were giving some thought to the question of whether they expect to help in maintaining the tobacco association, or whether they will let the efforts of several years pass for naught, permitting the organization to pass out of existence. Unless a majority of all tobacco grown in this county in the year of 1910 is pledged to the organization it will not be maintained. This paper has in the past and expects to continue the fight in the future for this splendid body of toilers, and in the future as the past, we are going to do this in the face of any and all opposition. We are not forgetful of the abuse and vilification that has been heaped upon us, but more directly upon the heads of the growers of the wealth of the land, but yet undaunted and unafraid we will champion the cause of the men and the women and the children who are forced to labor that they might at least enjoy the necessities of this life. We are even more generous with them than this and would have them enjoy many of the luxuries to which they are so justly entitled. Every laborer is worthy of his hire, and to him who produces should come a reasonable reward for the products of his industry and frugality.

The association wants recruits. It wants all former members to return to the fold, it wants new

members, but it does not want nor desire the membership of a champion in the person of political pirates who in the past did all within their power to encompass its destruction with the hope that fortune might smile upon them and that to victory they would ride upon its ruins. It wants members true and strong, members who will stand in the face of any character of storm and fight the battle for better prices. It does not seek the wolf in the sheep's clothing, and when attempt is made by such to enter the fold protests will be made in no uncertain terms. Do not think that the tobacco growers in Calloway county will be deceived a second time. Do not attempt to come to them with bowed heads and bended knees believing that you can encompass their material injury. The organization has passed through the fire furnace and emerged refined and is able to stand any and all gales, capacitated to weather the storms of abuse and misrepresentation that it will encounter. The ranks of the army of toilers will be closely guarded in the future and at the first attempt of a Benedict Arnold or a Judas Iscariot to enter with the expectation of betraying the growers into the hands of the trusts will meet the stern and determined opposition of every loyal man.

It is our purpose in this article to make some inquiry as to why any tobacco grower in the county can afford to stay out of the or-

ganization longer. Lay aside every prejudice and if there is a single sensible reason that can be advanced for refusal to join the association the columns of this paper are open to the grower who cares to make the endeavor to convince thinking persons that such a reason exists. Upon the other hand facts are easy of access to demonstrate the truthfulness of the statement that the failure of the Calloway farmers to pool their tobacco the past season has cost them not less than a half million dollars. The average price maintained by the association on all tobacco sold to date has been not less than \$5.00 per hundred more than the average price received by the grower who failed to pledge his crop of 1909. Who is the loser? Who must suffer for this loss? Because of prejudice of a large number of the growers the women and the children have been denied the benefits of their labor and assistance which produced this crop of tobacco and it was not right. A half million dollars distributed among the farmers of the county today would pay every dollar of the taxes for 1910 and every dollar of indebtedness of every farmer in the county and leave a handsome surplus. What sane reason can be advanced for this useless waste? Every grower who sold his tobacco to the independent or trust buyer the past season can take his own pencil and a piece of paper and readily reach a correct solution of the absolute loss maintained by him.

The association is today the strongest organization of its kind in the world. Its methods of preparing the crop for market have been perfected and its methods of settlement cannot be questioned. In its infancy errors crept in, but no organization of the magnitude and scope was ever perfected in a day or a

year. Every objectionable feature has been eliminated and it stands today without a peer. We would plead with the producers of this county to take the case under advisement and if after due deliberation they find it worthy of their support we trust that no man will be so prejudiced against his own interest as to stand in the way of his material progress and advancement. The farmers of this county are entitled to every dollar they earn, but without a concert of action they cannot hope to realize full compensation for their labor. It looks like uselessness for us to attempt to reason with men upon this question. The fact that losses are sustained by every man who refuses to join the association is evident upon every hand, and why attempt any further evidence that every grower should become a member? This paper is sincerely in hopes that not only 51 per cent of the present crop will be pledged but are earnestly in hopes that every crop in the county will be sold this year through the association.

Much interest is being manifested throughout the county and wherever meetings are being held hundreds of acres are being pledged. The books close August 15th, and unless 51 per cent of the entire crop of Calloway is pledged the organization will withdraw from the county. Can the farmers of the county afford to permit this to be done? Do you want to see a return to \$1 and \$4 for the product of your labor? Even the man who has never pledged admits that the association is responsible for the present high prices and that without it ruin must follow. Pledges are being circulated throughout the county and it behooves every man to take advantage of the very first opportunity to become a member.

We are publishing in this issue of the Ledger a warning sent out by the state board of health regarding flies. Every house-keeper will agree that these pests are more numerous this present season than for years. Scientists have proven beyond dispute that flies are the purveyors of more diseases than most any other source, and it behooves every family to take extra precaution to guard against them. There is considerable sickness of a malignant type in our city and unless proper precaution is taken an epidemic is liable to result. Read this article and profit thereby.

Mrs. Will Willoughby, of near New Concord, made attempt to destroy her own life and that of her infant child, was the report sent to town Tuesday afternoon.

Dr. Will Mason was hurriedly called and found that Mrs. Willoughby had dissolved the heads of several matches in water and gave some of the solution to her child and also drank a part of it herself. She had not used enough of the poison to result seriously. No cause is given for the rash act.

R. Downs and son, Guy, and Kenneth Matheny left Tuesday afternoon for the west. Downs and son will visit New Mexico, Old Mexico and different sections of Texas and expects to be absent several weeks. Kenneth goes to Liverpool, Texas, to join his father and will locate there and engage in the mercantile business.

P. A. Walker, wife and daughter, Miss Nesby, started from their home last Sunday on the east side of the county to spend the day with his son, Manuel Walker, and were occupying a single buggy to which was hitched a horse. In making a sharp turn in the road Miss Nesby was thrown out and under the wheels of the vehicle. She sustained quite painful bruises, but fortunately was not seriously hurt. The fact that the horse was under splendid control is reason that he did not run away and possibly injure all the occupants.

Mit Yarbrough, of the New Providence section of the county, seldom ever drinks anything but water, but if his neighbors are telling the truth on him—Mit has fallen of the water wagon and recently indulged in something a little stronger. He was cutting hay in the field last week and was not contented with one jug in the field and carried two out with him in the afternoon. Old Sol was hung in the heavens and pouring his rays down without mercy. Mit decided when he passed by the extra jug that he needed something refreshing, and pulling the jug from its hiding place in the shade of a fence and without further investigation turned it up and took a long pull at it. He spit and sputtered and was finally compelled to quit work and go to the house and summon a doctor before he got relief.—Mit had drank some of the lubricating oil he used on his mover.

Married Felicity

Showing Sympathy Is True Secret

By HELEN OLDFIELD

T MAN who wins a woman's heart and marries her will have any difficulty in keeping her love through weal or woe if only he loves her and does not forget to tell her so, not once for all, but over and over again. Life largely consists of compensations; and not the least of these is that while a man may choose and a woman must wait to be chosen, women love to be loved, and tenderness and sympathy rarely fail to win their love and to retain it when once won.

The trite saying that "trifles make up the sum of human life" is especially true of women. Men make one of their greatest mistakes in neglecting the little things, the loving word, the small attentions which are to a woman's heart what dew is to the flower.

When a woman loves a man she is like the hero in Marmontel's fairy tale and looks at him through rose-colored glasses. No imagination of poet has such idealizing power as the affection of a devoted wife; her love, like the Midas touch, turns all to gold. Ordinary virtue swells into moral heroism; dull respectability is exalted into sublime conscientiousness; common, every-day cleverness is accounted as transcendent genius. As somebody has said, wives have a way of believing that the only limit to their husbands' ability is their own desire, that they have in them a potentiality of intellect, and could become eminent authors, statesmen, or anything else that they liked.

It must be confessed, however, that not a few admit their husbands' inability to make money, but usually this inability is for good and sufficient reason, which is ample excuse, if excuse be needed. Even when the judgment is clearer the fond affection remains and is ever ready to find an excuse for a weakness, justification for a fault. A loving wife allows nobody to blame her husband.

There is small reason to doubt that most wives who are eating out their hearts with the fear that Jack or Edwin does not love them as he used to do are borrowing needless trouble. Foolish of them? Oh, yes, but then it is just as bad to be scared to death as to be killed outright.

Business is the American woman's chief, usually her only, rival, and the husband who has no time to pet his wife generally is working hard to make money for her and the babies. "Business comes first," as we all know, is a first-class commercial maxim, but the wisdom of it scarcely is comforting to the wife who feels herself snubbed and neglected, who so far as her real self is concerned is as lonely and companionless as though she were cast on a desert island.

The lack of sympathy shown by men to their wives is at the root of much marital unhappiness. Yet the average hard-working man does not, perhaps, comprehend this. Alas that so few of us understand that the life is more than the meat, the body more than the raiment!

Pin Money From Flower Garden

By AGNES CLARKE

Let her make a study of what seed is self-propagating, what degenerates quickly, what is long in germinating, and what does not come true to type. Such information can be written on the seed envelopes, which may be ordinary sizes used for calling cards.

It is also well to add the height, color and time of blooming of seed and name of plant. Simple cultural directions are better yet.

In collecting seed take only from best specimens and put at once into proper envelope as mixing is easy and does not tend to confidence.

If there is a corner of the garden to make a seed bed, seedlings of perennials can be started ready for September planting. Cuttings of roses, geraniums and other plants can be struck for home grown plants in winter.

In connection with this industry flowers can be cut from garden, made into loose bunches, ready to sell to passing automobilists, or sent to the nearest hotel.

It may be possible to make a deal with a city florist and seedsman by which the blooms and seedlings as well as seeds are disposed of in a lot.

American Husband Devoted to Wife

By E. D. PRIMERO

Zurich, Switzerland

He works like a horse that his wife may have three servants to do her work and her time for leisure. She in return entertains, rides, drives, reads and studies, and in short gets so much "culture" that she can soon look down on her husband and use words he never heard of.

He gives up an enjoyable fishing trip to the "lake in the woods" to escort his better half to Paris. She drags him around, to the shops for women during the day and tells him what to wear evenings and how to hold his knife and fork.

He loves his daughter—his most expensive luxury. She demands the most. He gives her the most. To make her happy he does not stop short of the most extravagant of resorts, schools, journeys, music teachers, dressmakers and whatever female foolishness and capriciousness can conceive of. He lets her travel in Europe, where she falls in love with a nobleman, who after obtaining an income for life insured by an iron-bound contract, marries her. Daughter settles abroad. If father wants to see her let him go to Wiesbaden or Aix-les-Bains, or some other good resort, where he can get a room at the same hotel.

He has a son. Sons are an incubance in U. S. A. They do not marry titled wives and thereby elevate mamma's social position. Son gets no income for life. Let him work or let him be satisfied with \$150 a month. "Make a man of culture of him and let him devote his time to the city." I guess not. My son has to work. My daughter leads a life of luxury in Europe. That is enough for one family.

GUIANA SNOW PEAKS

Dutch Expedition Finds High Range of Mountains on Island.

Existence of Glittering Ice-Clad Summits Proved to Be Fact—Other Explorers Hitherto Unable to Penetrate Wilderness.

The Hague.—Until recently none of the many exploring expeditions sent out by England, Germany and Holland had ever succeeded in penetrating into the heart of New Guinea, the great island which is partitioned among the three nations. Swamps, forests and many other difficulties stood in the way, to say nothing of the natives, who were reported to be savages devoted to head-hunting and cannibalism.

Some progress, however, was made. The courses of several rivers were determined and the existence of a lofty range of mountains was verified. The goal of several Dutch expeditions had been the Orange range, the highest peak of which had been named Wilhelmina, and considerable information about it had been obtained. Several of the explorers claimed to have reached these mountains, but about this there was a difference of opinion, some saying that the whiteness might be due to chalky formations of rock.

Last year Professor Lorentz and a small party of Netherlands set out to reach these mountains, which had seemed so elusive. The professor was familiar with the coast regions and the language of the natives, and he also had the assistance of the government. Following a river into the interior, the party succeeded in reaching a high table land never before visited by white men, but the snowy range of mountains could not be seen on account of the proximity of the foothills.

Feeling sure that they were proceeding in the right direction, the party pushed on in spite of innumerable difficulties and at last saw the glittering goal of their journey in the far distance. One of the peaks they discovered was christened Juliana. Though most of the members of the expedition were suffering from fever contracted in the jungles, they continued on, leaving all unnecessary articles behind and establishing supply depots for the return trip. The doctor in the party was too ex-

hausted to proceed and had to be left at one of the depots with some natives.

Doctor Lorentz, J. Van Nieuwen and four natives made the final dash and succeeded in reaching the glaciers and fields of eternal snow on the summit of Mount Wilhelmina, more than 15,000 feet above sea level. Several photographs were taken at the highest point and the Dutch flag was planted. Then a hurried return was made, in the course of which Doctor Lorentz sustained a bad fall. He was internally injured and his companions had to remain with him all night in an exposed spot on the mountain while a terrible storm of wind and snow raged about them.

Other mishaps occurred on the return trip and the members of the expedition would have died from starvation if a relief party had not reached them at the last moment. When they finally reached Ajkmaar, the government coast station, they were welcomed with flags and triumphal arches as heroes who had suffered and accomplished much in the service of science.

Cat Stops Church Concert

Pussy Gets Entangled in Pipes of Organ and Instrument Goes Dumb—Finally Released.

Jersey City, N. J.—A black cat born in a church got tangled up in the stops and pipes of the organ the other night and a feature of a concert given there by the Young Women's Christian association had to be scratched. Rev. Paul A. Menry lent his church, the Second Dutch Reformed, in Summit avenue, for the entertainment, and promised to have his organist, Mrs. Prue Robinson, play selections on the \$7,000 organ. The organ music was advertised as a feature.

The church was crowded when Mrs. Robinson went to the organ. The electric blower was in motion, but the organist couldn't produce any notes. The church engineer examined the electrical apparatus and reported it in good order. Mr. Menry and the organist then climbed up among the pipes and heard a cat meowing. They discovered the church cat, which was born in the edifice a few months ago.

WOMAN'S HOME A SMALL ARK

Chickens, Dogs, Ducks, Pigs and Goats in Three Rooms Gets Woman into Police Court.

New York.—Outside of having 30 chickens, ten ducks, five pigs, four dogs and two goats concealed about her three-room house in the Rocky Hill road, at Bayside, Queens county, Mrs. Annie Curke hasn't a single pet to keep her company. When brought before Judge O'Keefe in special sessions court at Jamaica, charged with keeping the chickens in piggery, pigs in the Dutch flag was planted. Then a hurried return was made, in the course of which Doctor Lorentz sustained a bad fall. He was internally injured and his companions had to remain with him all night in an exposed spot on the mountain while a terrible storm of wind and snow raged about them.

Evidence showed that the ducks occupied the attic, the dogs one of the rooms on the first floor, while the pigs have a front room and bath directly under the place where there would be a bay window if there were one. The goats occupy a cottage near by and the chickens are now particular where they sleep.

Judge O'Keefe suspended sentence when Mrs. Curke charged that the complaint was made by a land booming concern. She promised to keep her chickens on a leash, but she may hear from the department of health, as a transcript of the testimony was obtained for its use.

SMUGGLE IN MANY DIAMONDS

Importers' Protective Union Declares Foreigners, Not Tourists, Worst Offenders.

New York.—About \$10,000,000 worth of diamonds are smuggled into the United States annually, according to a statement issued by the Importers' Protective union, which has just offered to pay rewards of \$2,500 and up for information leading to the arrest of offenders.

"An inspection of the returns" of sales made by the large exporters in Paris, Vienna, Berlin and London shows that the amount of smuggling is enormous," declared the association's statement. "A good many of the precious stones pass the customs lines in the possession of members of steamship crews, while at the smaller ports of entry, where there are not such expert appraisers as in New York, the government is cheated of a considerable sum of money by under-valuation."

The amount of smuggling by tourists is, of course, harder to estimate than even the professional smuggling. But it has been said that more has got through in the past without paying duty than ever was declared.

"That the really big smuggling—carefully organized and cleverly executed—is done by foreigners. Hollanders from Amsterdam come over here and travel about the country selling the stones to smart-jewelry. They offer them at 7 or 8 per cent reduction on the regular price, and no questions are asked."

World's Record Farm. Mission, Tex.—It is claimed that Charles Volz of the Mission community holds the world's record for profits from intensive farming. He recently sold his Bermuda onion crop on 24 acres for \$12,982. Deducting the expenses of planting, cultivating, harvesting and marketing, the crop left a net return of \$10,653. The onion yield from these 24 acres filled 22 cars.

\$1,500 for a Pearl. Peoria, Ill.—The largest pearl ever found in the Illinois river has been bought from a local fisherman by Frank Hudnall, a pearl dealer of Bath, Ill. The pearl is described as a "double saucer," and weighs 35 grains. Mr. Hudnall paid \$1,500 for it.

A Serious Blunder

"Yes," said the drug clerk, "I am called upon occasionally to compound prescriptions at night."

Get After the Flies. With the warm days flies multiply amazingly. Now is the time to attack them and prevent the breeding of millions from the few hundreds that already exist.

Perhaps the most effective method of destroying flies is by burning pyrethrum in each room. This stings the flies and they can be swept up and burned.

Flies are dangerous carriers of disease and an enemy of humankind. Do your part toward keeping down the pest and improving the health of your community.

Try This, This Summer

The very next time you're hot, tired or thirsty, step up to a soda fountain and get a glass of Coca-Cola. It will cool you off, relieve your bodily and mental fatigue and quench your thirst delightfully. At soda fountains or carbonated in bottles—be everywhere. Delicious, refreshing and wholesome. Send to the Coca-Cola Co., Atlanta, Ga. for your free booklet "The Truth About Coca-Cola." Tells what Coca-Cola is and why it is so delicious, refreshing and thirst-quenching. And send 2c stamp for the Coca-Cola Baseball Record Book for 1910—contains the famous poem "Casey At The Bat," records, schedules for both leagues and other valuable baseball information compiled by authorities.

Latest Attempt, in Connection With the Ballinger Case, is Ludicrous—The Facts Stated From a Disinterested Standpoint.

The latest attempt to discredit the president of the United States is perhaps the lowest which has yet been ventured by his enemies or by the muckrakers whose only object is to make money by selling slander and defamation of character. It is a story told by a stenographer in the interior department, for what inducements he does not definitely know, about the preparation of a statement of the Glavis case—the Glavis part of the Ballinger case—which seems to have been adopted by President Taft as the groundwork whereon he based his letter to Ballinger, acquitting him, and sustaining him, and authorizing the dismissal of Glavis.

Taking the Kerby story as it stands, the charge made is easily boiled down to an assertion that the president was given a draft of a letter which he might have adopted as his own, had he so desired, and sent to Ballinger, and that he did, in fact, make it the basis of his letter, differently worded. It is like saying that a judge took a carefully prepared brief submitted by a lawyer, looked it over, considered it a week or so, and then adopted its views as substantially his own.

There is nothing mysterious or suspicious about such a transaction. It is the kind that takes place constantly among men busy with large affairs. It does nothing of importance to the Ballinger case.

As for that grave matter, the position of the country—of every honest man and decent newspaper—is still that the truth, the whole truth and the truth only, must be brought to light and made the basis of the popular and official verdict. It is relatively unimportant who may be hurt or benefited, or what the political consequences may be. Truth, right and justice are the vital factors in the case. Nothing else should count.

The New Commerce Court.

There will be general approval, we believe, of the action of the house at Washington in amending the administration railroad bill in respect to the manner of appointing the proposed interstate commerce court. The measure presented by Mr. Taft's cabinet provided for the appointment by the president of five members of the court with power to pass upon appeals from the decisions of the interstate commerce commission. The house amendment provides that the president shall have power to appoint five additional circuit judges and that the justices of the supreme court shall select from all the circuit judges of the country five who shall make up the personnel of the commerce court.

The first natural and desirable result of this amendment will be to remove the commerce court from politics and make it the country wants it to be, a judicial body the selection of which is not made on account of political service or political prominence of its members. The amendment unquestionably strengthens the bill.

President Has Done Well.

It has been the president's steady purpose and desire that the chief principles of the platform on which he was elected should be realized in law. In this he has succeeded, in spite of many difficulties, especially, perhaps, the conflict in his party precipitated by his own assistance in Senator Aldrich's scheme of disciplining the insurgents; and the result is that this session of congress adjourns with a body of constructive legislation to its credit that a few weeks ago seemed altogether out of reach.

AS MEASURE OF ECONOMY

President Taft Wise in Asking Congressional Sanction for Employment of Experts.

The president asked Chairman Tamm to secure the insertion in the sundry civil appropriation bill of an item for the employment of business experts to overhaul the operations of the executive departments. Secretary MacVeagh, upon assuming charge of the treasury, enlisted the aid of several Chicago business experts, who served without compensation, and as a result of their efforts in one section of the department considerable economies were effected. This led the president to believe that the extension of that inquiry might be equally valuable.

There have been other attempts to overhaul the departments, notably the Keop-commission, named upon the suggestion of President Roosevelt. That commission, however, consisted of officials and it treasury somewhat of the blind attempting to lead the blind, although some good was accomplished. The introduction of business methods by experts unaffiliated by experience in political service may accomplish more. The experiment of the secretary of the treasury suggests that it might be worth while and the economies secured by the postoffice department indicate another probably profitable field for their researches.

Deserves Support of Voters.

Attorney General Wickersham, speaking from his own knowledge of the splendid leadership of President Taft and of the faithful and earnest efforts of the national administration to restrain monopolies and to preserve the people's rights, draws the unavoidable inference that it is the duty of all Republicans to fall in line behind the president and to support him in his conscientious and indefatigable labors. This is the right course not only because it is for the interest of the people, but because the Republican party can in this way alone maintain the standard which has come to be as a national factor from taking the lead in regulating corporations and in suppressing excesses. This is a case where emphatically in union there is strength, and union should be effected on a practical basis, which is by keeping all the forces of the party together behind the one man who is in a position to accomplish something that is really effective. The Republicans in congress may well take the hint, so that their party control may not be dissipated by the chasing of rainbows.

Tariff Properly Revised.

The nation as a whole is coming to the realization that there has been a revision of the tariff downward. Congressman McCall, quoted by Mr. Sherman, declares it is the greatest cut made at any time since Washington signed the first tariff bill. The advantage on the side of the defenders of the bill is: First they have the facts with regard to its good points; and secondly they admit, as the president admits, that some improvements can yet be made. They are working against the barnstormers, who are weak in two ways. They are not informed on the bill itself, and they are not big enough to admit its good points.

The people are coming to see, also, that the Taft administration has made good in every way.

The Financing of Peace.

Financing peace rather than war, then, is Mr. Knox's central thought—a better way than ever was tried in any endeavor to bring arbitration to the point where wars shall cease; when the strong nations shall help the weak and when corporate righteousness shall compel unrighteousness to disappear. Mr. Knox is not expectant that all these things will be realized, as such an outcome would witness the millennium; but he predicts that in some sense and degree they will be brought about.

UNDEFEATED CHAMPION OF THE NORTHWEST.

T. A. Ireland, Rifle Shot, of Colfax, Wash., Tells a Story.

Mr. Ireland is the holder of four world records and has yet to lose his first match—says he: "Kidney trouble so affected my vision as to interfere with my shooting. I became so nervous I could hardly hold a gun. There was severe pain in my back and head and my kidneys were terribly disordered. Doan's Kidney Pills cured me after I had doctored and taken nearly every remedy imaginable without relief. I will give further details of my case to anyone enclosing stamp."

Remember the name—Doan's. For sale by all druggists. 50 cents a box. Foster-McIlburn Co., Buffalo, N. Y.

THE DRAWBACK.

"There are very few women architects."

"No wonder. Women do not relish being called 'designing creatures'."

BOY TORTURED BY ECZEMA

"When my boy was six years old, he suffered terribly with eczema. He could neither sit still nor lie quietly in bed, for the itching was dreadful. He would irritate spots by scratching with his nails and that only made them worse. A doctor treated him and we tried almost everything, but the eczema seemed to spread. It started in a small place on the lower extremities and spread for two years until it very nearly covered the back part of his leg to the knee."

"Finally I got Cuticura Soap, Cuticura Ointment and Cuticura Pills, and gave them according to directions. I used them in the morning and that evening, before I put my boy to bed, I used them again and the improvement even in those few hours was surprising. The inflammation seemed to be so much less. I used two boxes of Cuticura Ointment, the same of the Pills and the Soap and my boy was cured. My son is now in his seventeenth year and he has never had a return of the eczema."

"I took care of a friend's child that had eczema on its face and limbs and I used the Cuticura Soap and Ointment. They acted on the child just as they did on my son and it has never returned. I would recommend the Cuticura Remedies to anyone. Mrs. A. J. Cochran, 1813 Columbia Ave., Philadelphia, Pa., Oct. 20, 1909."

Why Bother About It?

"Do you think a man who will neglect his business to go to baseball games is of sound mind?"

"Oh, come, let's be optimistic. I can't believe everybody's crazy."

Remedies are Needed

Where we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other intestinal derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Lightning Rods on the White House.

The White House is going to have lightning rods. They will be put on some time this summer. The distinguished occupants of the mansion past and present have never been protected against Jupiter's bolts. The rods will be put on every part of the building, except the low offices where the president transacts his official business. Col. Spencer S. Colby, United States superintendent of public grounds and buildings, persuaded Mr. Taft that the White House ought to be equipped with the rods and executive approval was given. The cost will be between \$500 and \$600.—Philadelphia North American.

\$2000.00 In Gold Given Away in Prizes

To Ladies Who Use Defiance Laundry Starch

Five hundred and seventy-two cash prizes divided as follows, to the man, woman or child who sends to us before November 15, 1910, the largest number of trade marks, "THE GLADIATOR," cut from our 16 ounce package, (or two from our 8 ounce package—to be counted as one), we will give TWO HUNDRED DOLLARS IN CASH. To the one sending the next largest number ONE HUNDRED DOLLARS IN CASH, and to the next twenty, TWENTY-FIVE DOLLARS each. To the next fifty, TEN DOLLARS each. The next two hundred, TWO DOLLARS each. The next three hundred, ONE DOLLAR each; in all, 572 prizes distributed as follows:

1 Grand Cash Prize, \$200.00	\$ 200.00
1 Grand Cash Prize, 100.00	100.00
20 Cash Prizes, 25.00 each	...	500.00
50 Cash Prizes, 10.00 each	...	500.00
200 Cash Prizes, 2.00 each	...	400.00
300 Cash Prizes, 1.00 each	...	300.00
572 Prizes, in all, amounting to	\$2000.00

The question may arise in your mind, "How can we afford to do this?" The answer is: we found by experience that instead of using \$5,000 for advertising to cover a certain field, by giving \$2,000 of this amount to the ladies in cash premiums and using the other \$3,000 for advertising, we obtain much better results.

Reasons Why You Should Use Defiance Starch

- It is the very best cold water starch on the market
- It can also be used as boiled starch
- It never sticks to the iron
- It contains 16 ounces to the package, as against other brands' only 12 ounces
- One-third more starch—lasts one-third longer
- Ironing can be done one-third quicker and twice as easy where the starch never sticks

In addition to these reasons, some one must secure one of the grand cash prizes. Think of capturing the grand cash prize of either \$200.00 or \$100.00 to be received just before Christmas. All prizes will be distributed not later than Dec. 10, 1910.

Start the Ball Rolling

Begin at once to arrange for your children to solicit your neighbors who will give you the "trade marks." Even those who do not wish to compete for any of the prizes will get one-third more starch by using "Defiance." This is sufficient inducement for giving it a trial. Ladies can arrange clubs of a dozen or more and the trade marks be sent in under one name and divide the prize among themselves, if they wish.

BEWARE of a dealer who would rather sell a 12 ounce package than a 16 ounce package, because customers buy often. We say to you, if you have a dealer in town who keeps DEFIANCER STARCH, 16 ounce packages, that is the place to buy ALL of your goods in his line, because it is evident he has some interest in his customers' welfare. Some dealer in your town will be sure to keep on hand this starch.

Save all trade marks until November 10th, or 12th, of this year, and then send them to THE DEFIANCER STARCH COMPANY, OMAHA, NEBRASKA, by mail either by letter or parcel post. In doing so, be sure and give your name and correct address. In case of a "tie" in the two grand cash prizes, the prize will have to be divided. We have deposited \$2,000 with the Merchants National Bank, of Omaha, Nebraska, payable to the order of A. M. Pinto, who is the treasurer of a large corporation having offices in 24 cities in the United States. Mr. Pinto will superintend the distribution of the prizes.

Remember, there are 572 prizes, besides the two grand prizes. That all the trade marks must be received by us by November 15th. Give plainly your correct name and address.

A Word to the Retail Dealer

We say to the retail dealer who is not handling DEFIANCER STARCH now, if he will buy from his jobber one-half a case (8 1/2 ounce packages) or one full case (17 ounce packages), he may return to us any unsold portion of such half or full case as he may have on hand November 15th, and we will send him a draft for the same, at his cost price. By this method no dealer need feel that he is taking any risk in buying a half or full case of this starch at once.

Porter Ragsdale, one of the cleverest citizens of the east side of the county, and who was operated upon some several months ago for a cancerous growth upon his leg, was in town Saturday. He stated that he thought he was afflicted with a similar trouble in the right shoulder. His many friends throughout the county are in hopes that he is in error and that he will soon be enjoying good health.

Hardy Ross, of near Almo, was adjudged of unsound mind, the first of the week and ordered to the asylum at Hopkinsville. He has been confined in the same institution upon three previous occasions and his friends hope that the benefits to be derived this time will be lasting.

Knox Parr and wife, of Ft. Worth, Texas, arrived here the first of the week and are the guests of his sister, Mrs. J. P. McElrath. They are returning from an extended bridal trip through the east.

John McDaniel left Tuesday morning for Anson, Texas, where he will spend several weeks the guests of his sister, Mrs. Geo. Martin. His friends are in hopes that the trip will be a benefit to his health.

Dr. W. R. Dale, of Sumner, Ill., arrived here the first of the week upon a visit to his brother, C. F. Dale, and family. His children have been visiting here for some time.

Ed Shell of near Murray, Ky., and sisters, Josie and Millie, are the guests of Mrs. Mary Archer, and son, Walter.—Paris Post Intelligencer.

BLOCKADED
Every Household in Murray Should Know How to Resist It.

The back aches because the kidneys are blockaded. Help the kidneys with their work. The back will ache no more. Lots of proof that doan's kidney pills do this.

It's the best proof, for it comes from Murray. Mrs. J. M. Radford, Murray, Ky., Says: "When I compare my present good health with my condition before using doan's kidney pills, it seems as if I never could be grateful enough to this remedy for the benefit I received. My back was sore and I could not stoop without being seized by intense pains in my loins. I was tired, weak and devoid of ambition and nothing seemed to do me any good. I finally procured doan's kidney pills at Dale & Stubblefield's drug store and began their use. They soon freed my backache and toned up my system."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

FOR JULY
Copyright 1910, by C. H. Rieth.

When the Ballinger trial is ended, And the jury has said what it thinks; When the case has been made and defended With the wonted political winds— We shall smile—and gads, we shall need to That feel it as well had been dropped. And the Guggenheim crowd will proceed to Resume where it was when it stopped. The signs shall come down in the timber, And the patents shall tie up the coal. The law will get flabby and lumber, And the trusts will do well on the whole. It always turns out in that manner, Although we may blush to confess it. And we do not regard it a banner Achievement, exactly, to guess it.

July is a tribute to Caesar. One day, with some other insurgents, he talked by the Pillar of Pompey on things of political urgency. He was just on the point of explaining the key to some government riddle when a party of regulars jumped him and cut him in two in the middle.

There was Decius Brutus, the speaker, and Cassius, boss of the Senate, together with others, insistent upon some political tenet. "The party forever!" they shouted, and what with that terrible slasher Servilius Casca great Caesar as well had been run through a hash.

At any rate, Antony found him cut into fodder for fishes, and begged this request of the Romans, who granted the least of his wishes. "And thus it has happened and shall be so long as the Tiber runs by the Pillar of Pompey that Caesar shall live in the name of July."

The Fourth shall return to discover Us waiting in battle array. And what with one thing and another— Regretting we won anyway. The cannon shall boom, and the scramble For things on the medicine shelves Shall warn inexperienced countries Aspiring to freedom themselves.

The dynamite cap and the rocket shall remind up of tyranny thwarted, and the valiant forefather shall turn in his coffin to see what he started. The eagle shall mount on his pinions and circle the North and the South, and the rapid-fire orator stand on the platform and shoot of his mouth.

This latter, however, is harmless in a strict pathological way, but remains notwithstanding an evil we must in due season ally. Alas, how deficient is nature that might lay this pest on the shelf with ruling that shooting his mouth off he gave lockjaw to himself!

This tetanus, we are quite certain, has good and defensible uses, and all of its manifestations thus far have been only abuses. The idea, as we regard it, is not that it should be the cause of any more serious matter than locking the orator's jaws.

You know that we never hear of it except on the Fourth of July, and whenever some innocent gets it we forever are wondering why. Well, this is the fact of the matter, and by Jove, we are willing to bet it turns out in the long run that no one but a lot of old wind-jammers get it.

However, be that it may be— And get whom the tetanus will. The jubilant youth of the nation Will resume with its shooting to kill. The safe and the sane celebration, Will suit us who are not so skittish.

But the youngsters have got to do something To show what we did to the British

There never was anything in the way the forefathers attacked them, and as for the saner attainments, the old fellows seemed to have lacked them. They simply cast fear to the bowwows and wadded into the fray, and a boy does not think himself worthy if he can't shoot himself, anyway.

At any rate, Jefferies and Johnson will grow like a couple of poodles and observe independence with beating the hair off their mutual noddles. They'll alternate making the other levathan howl for his mother, and if the country at random is lucky they'll manage to kill one another.

It's only a plan to make money, deserving the strictest of structures, for what they will have is a race war, dividing what's made on the pictures. We've been pretty mad in this country for dollars, and power, and places, but this is the first time we've trafficked upon the abyss between races.

The fat occupant of the White House Will lie on his back in the grass— Beneath the green Beverly maples. Observing the aeroplanes pass. The chauffeurs will keep on chauffing. With feelings it's no one but Bill, And they'll sigh just to think what had happened. Had they flown over Sagamore Hill.

But not every man can be Caesar, as someone has stated, alas! and in the due course of the matter somebody must lie in the grass. It's hard on a strenuous nation, afflicting us all in a way, but we'll look on the brighter side of it, and conclude it is good for the hay.

However, Time flies is a proverb. And one day, his feet on his gait And his engine back-pedaling, August Will come aeroplaning along.

I can do your family washing easier, quicker and better; save rubbing and save the clothes; make them clean, wholesome and snowy white; brighten colors, soften woollens and kill germs.
